<p><b>6. Briefing on the Draft Unlawful Public Entertainment (Jersey) Regulations 202-</b></p> <p>The Panel received a briefing on the Unlawful Public Entertainment (Jersey) Regulations 202- (the Draft Regulations).</p>	

<p>The Panel was advised that, as identified in <a href="#">correspondence</a> from the Minister for Sustainable Economic Development, the <a href="#">Unlawful Public Entertainments (Jersey) Regulations</a> (the Regulations) governed the licencing of public events in Jersey and that the Department for the Economy was undertaking work which included the drafting and lodging of bespoke events licencing legislation. The Panel was reminded that consultation with key stakeholders was anticipated and that the formation of the any legislation would likely take the remainder of the political term to complete.</p> <p>The Panel was informed that the Regulations were due to expire in July 2024 and, as such, the Draft Regulations were being produced to renew the Regulations for an additional three years and it was anticipated these would be lodged for a debate prior to the 2024 summer recess.</p> <p>A private detailed file note was made of the briefing, classified as exempt in accordance with Article 35 of the Freedom of Information (Jersey) Law 2011 (as amended).</p> <p>The Panel thanked the Departmental officers, who withdrew from the meeting.</p> <p>The Panel agreed that a letter would be sent to the Minister for Sustainable Economic Development questioning the proposal to extend the Regulations by 3 years.</p>	<b>AC</b>

Briefing on the Draft Cyber Security (Jersey) Law 202-</b></p> <p>The Panel welcomed Departmental officers for a briefing on the Draft Cyber Security (Jersey) Law 202- (the Draft Cyber Security Law).</p> <p>The Panel was informed that the Draft Cyber Security Law would establish an Office of the Commissioner (the Commissioner) for Cyber Security to enable the independence of the Jersey Cyber Security Centre (JCSC). Under the Draft Cyber Security Law the Commissioner would hold statutory powers and responsibilities relating to cyber security in the Island, this included the necessity for Operators of Essential Services to report any cyber security instances to the Commissioner.</p> <p>The Panel was informed that the independence of the Commissioner from the Government of Jersey, Council of Ministers or States Assembly was vital in allowing adequate operation of that office, largely due to data sharing policy and the need for the ability to make any comments upon the operations of the Government of Jersey.</p> <p>The Panel was reassured that the Commissioner would not be serving as a regulatory body for cyber security, however the JCSC would offer guidance and support where necessary and that powers inferred by the Draft Law would be used only where necessary to gather sufficient information on cyber threats.</p> <p>The Panel was informed that Technical Advisory Councils (TAC) would be established to support the Commissioner with specialist advice as well as input on the work of JCSC and that a primary TAC would be established to aid in governance of the Commissioner.</p> <p>The Panel was advised that it was anticipated that the Draft Cyber Security Law would be lodged prior to the 2024 summer recess.</p> <p>The Panel was offered a visit to the JCSC and it agreed that this may be useful.</p> <p>A private detailed file note was made of the briefing, classified as exempt in accordance with Article 35 of the Freedom of Information (Jersey) Law 2011 (as amended).</p>	<b>PL</b>
