**STATES GREFFE**

STATES MEMBERS' PARKING (P.199/2004): AMENDMENT

---

*At the end of paragraph (b), after the words “by the Committee” add the words “, and that such charges should take effect from the date of introduction of charges to public employees for parking spaces provided by the States of Jersey in the built-up area of St. Helier and at the airport where parking charges to the public would normally apply.”*

SENATOR J.A. LE MAISTRE

## **REPORT**

I believe there should be equity between States members and public employees on the issue of parking, and that this will result in increased revenue arising from this important States asset.
