## **DRAFT HEALTH INSURANCE (PERFORMERS LIST FOR GENERAL MEDICAL PRACTITIONERS) (AMENDMENT) (JERSEY) REGULATIONS 201-**

### **REPORT**

---

The proposed amendments update the Health Insurance (Performers List for General Medical Practitioners (Jersey) Regulations 2014 to facilitate the introduction of trainees into general practice in Jersey. Without the amendments to the Regulations, trainees would not be permitted to access the Health Insurance Fund for the purpose of claiming medical benefit and prescribing. This would restrict established practices in hosting them.

The Regulations state that any medical practitioner in general practice in Jersey has to be on the Performers List if they are to be permitted to access the Health Insurance Fund (for the purposes of claiming rebates for consultations and for prescription fees).

At present, there is no provision for doctors who wish to qualify as G.P.s, known as Specialty Trainees and Foundation Year 2 trainees, to be on the List. Therefore a change to the legislation is required for this to occur.

A Foundation Year 2 doctor is someone in their second year of the post-graduate programme, which may include time training in general practice. These doctors then apply to enter a specialist training scheme. A Specialist Trainee in general practice is someone on a programme training to become an accredited G.P.

There is an appetite amongst trainees who are already in rotation within secondary care, as part of the structured G.P. training programme, to undertake a general practice placement on the Island with a view to becoming Jersey G.P.s upon completion of training. There have also been historic requests to complete training on-Island. In addition, there is a will amongst G.P. practices to host Foundation Year 2 trainees and Specialty Trainees, with a number of G.P.s currently committed to undertaking the appropriate training to accommodate them.

The major restriction to practices offering to host one of the trainees is the ability to access the Health Insurance Fund rebate. This restriction would be lifted should the Regulations be amended to incorporate trainees on a temporary basis. Practices will offer appointments with the trainees at a reduced rate, making patient access more affordable. Without access to the health insurance rebate, this would not be possible. Offering appointments with the trainees will also create more appointments with the substantive G.P.

The draft amendment enables trainees to be permitted temporary approval as a performer for the purpose of accessing the Health Insurance Fund.

**Financial and manpower implications**

There are no additional financial or manpower implications for the States arising from the adoption of these draft Regulations.

**Collective responsibility under Standing Order 21(3A)**

The Council of Ministers has a single policy position on this proposition, and as such, all Ministers, and the Assistant Ministers for Health and Social Services, are bound by the principle of collective responsibility to support the proposition, as outlined in the Code of Conduct and Practice for Ministers and Assistant Ministers ([R.11/2015](#) refers).

## Explanatory Note

---

These draft Regulations would amend the Health Insurance (Performers List for General Medical Practitioners) (Jersey) Regulations 2014 (the “principal Regulations”), to enable the inclusion on the performers list of 2 kinds of doctors (“GP specialty trainees” and “Foundation Year 2 doctors”, referred to together, for the purposes of these Regulations, as “GP trainees”: *Regulation 2(1)*) who are in training in Jersey for general practice, under the supervision of qualified GPs (referred to as “GP trainers”: again, defined by *Regulation 2(1)*). Inclusion on the performers list brings access to the health insurance fund, by virtue of Article 26(1A) of the Health Insurance (Jersey) Law 1967, under which a medical practitioner must be approved by the Minister for Social Security for the purposes of payment of medical benefit under that Law.

*Regulation 1* is an interpretation provision. *Regulation 2(2)* corrects a minor defect in the drafting of the principal Regulations (the reference mentioned in *Regulation 2(3)* should be to an impairment of, or concern regarding, fitness to practise, rather than fitness to practise in itself).

*Regulation 3(b)* amends *Regulation 3(3)* of the principal Regulations to require the performers list to contain a statement, where such is the case, that a performer is either a GP specialty trainee or a Foundation Year 2 doctor.

*Regulations 3(a), 4 and 5* amend *Regulations 3, 4 and 6* of the principal Regulations respectively, to disapply, in relation to all GP trainees, requirements for inclusion on the performers list which relate to registration on the UK practitioners register or General Practitioner Register. (Doctors who are not yet qualified as general practitioners would not be able to fulfil these requirements.)

Under new *Regulation 11A* of the principal Regulations (to be inserted by *Regulation 6*) a GP trainee may be included on the performers list for a limited period, of not less than 6 months and not more than 2 years in total, which must be within the period of 2 years beginning with the date of acceptance of the application for inclusion on the list.

A GP trainee must give an undertaking not to perform any primary medical service except under supervision of his or her GP trainer (this requirement is inserted as a new paragraph 4A of Schedule 1 to the principal Regulations, by *Regulation 8(d)*). A breach of such an undertaking will result in removal of the GP trainee from the performers list, under the new provision to be added by *Regulation 7* to *Regulation 29* of the principal Regulations.

*Regulation 8(a) to (c)* adjusts provisions in Schedule 1 to the principal Regulations (which set out what an application for inclusion on the performers list must contain) to accommodate applications by persons who are GP trainees.

*Regulation 9* gives the title by which these Regulations may be cited and provides for them to come into force 7 days after the day on which they are made.
