

**WRITTEN QUESTION TO THE MINISTER FOR INFRASTRUCTURE
BY DEPUTY R. LABEY OF ST. HELIER
ANSWER TO BE TABLED ON TUESDAY 6TH JUNE 2017**

Question

Will the Minister provide a list, in reverse chronological order (commencing with the most recent) of all consultations, desktop studies, design advice and drawing submissions, together with any internal and external reviews that have been conducted, in relation to the development and maintenance of Fort Regent since 1977?

Will the Minister provide the relevant dates and costs of each project, with the costs adjusted for inflation to reflect current values; and will he indicate within the list the name of the relevant Committee President or Minister in office at the time of preparation of the pertinent documents?

Answer

In the time available it has not been possible to provide a complete list of the documents requested by the Deputy nor has it been possible to provide the detail requested for each item.

The list below reflects a period over which a number of Departments and Ministers/Committee Presidents have been involved with Fort Regent. The various Departments will have retention schedules for documentation which may mean that the information required is no longer retained by those Departments. Those reports may have been procured by Departments other than that which had operational responsibility for the Fort and, as such, reference to ‘...relevant Committee President or Minister in office at the time...’ is not germane.

The question is unclear as to whether the Deputy is referring to the reports generated or the cost of work resulting from these reports. If this were a question asked under Freedom of Information legislation we would require further clarification, however, we have not been able to obtain this from the Deputy.

I would, therefore, invite the Deputy to meet with myself and relevant officers to see if we can clarify the information he seeks and provide him with a focussed and targeted response that meets his requirements and limits the need to use valuable officer resource.
