<p>1) Name and brief description of the proposed decision</p> <p>The subject of your CRIA may be a proposed law, policy or proposition and in accordance with the Law is referred to in this template as the ‘decision’</p> <ul style="list-style-type: none"> • What is the problem or issue the decision is trying to address? • Do children experience this problem differently from adults? <p>The States Assembly are being asked to approve the extension of the Unlawful Public Entertainments (Jersey) Regulations 2024 (“the Regulations”). These Regulations establish the framework by which public events in Jersey can be managed in a safe way with minimum disruption to the public.</p>
<p>2) Which groups of children and young people are likely to be affected?</p> <p>Groups of children could include early years, primary or secondary education; young adults; children with additional learning needs; disabled children; children living in poverty; children from particular ethnic backgrounds; migrants; refugees; care experienced children and LGBTQ+ children</p> <p>The Regulations establish the regulatory framework by which events are managed in Jersey. The Regulations therefore impact upon both young people involved in local events and as members of the public in respect of events being held in their vicinity. The latter group could include all children and young people in Jersey.</p>
<p>3) What is the likely impact of the proposed decision on children and on their rights?</p> <ul style="list-style-type: none"> • Identify any potential positive OR negative impacts and include indirect impacts on children and their rights as described in the UNCRC • Will different groups of children be affected differently by this decision? <p>These Regulations are identical to the existing Triennial Regulations and therefore represent no change in the governance of public entertainment and events. The report to the proposition notes the future plans to develop a full events and public entertainments law which is intended to create a more accessible process for facilitating events, including events organised by/ involving young people.</p>
<p>4) Is a full Children’s Rights Impact Assessment required?</p> <p>If you have identified impacts on children and their rights, a full CRIA should be completed. If no impacts are identified then a Full CRIA is not required, but please explain your rationale and how you reached this conclusion</p>

It is not considered that a full CRIA is required. The proposition deals with the renewal of the Triennial Regulations, although future work on a events and public entertainments law will need to consider the interests of young people in its development.
