## QUESTION PAPER

(See Item G)

Deputy R.G. Le Hérisssier of St. Saviour will ask the following questions of the President of the Education Committee -

“On 20th November, the President answered my earlier question on the objectives and success of the Education Committee’s Information Systems Strategy ‘Putting Jersey’s Future First’. Would the President advise the Assembly -

- (a) how much money, as a monetary sum and as a per cent of dedicated budget, has been spent to date on the Information Systems Strategy?
- (b) what the quantifiable measures used in measuring the success or otherwise of this strategy are?
- (c) to what measurable extent have each of the key objectives been met?”

The Deputy of St. John will ask the following questions of the President of the Human Resources Committee -

“During question time on 20th November the President put a supplementary question to the President of Public Services and I quote “would the President not concede that within any Committee area, the job of ensuring the message gets across to the media and public is the President’s?” Given this statement will the President confirm that the Committee also uses public relation firms? If the answer is in the affirmative, will he provide the following details -

- (a) the name of the public relations company?
- (b) how long public relations companies have been employed by Human Resources?

- (c) the cost of employing public relations firms over the last three years?"

Deputy G.C.L. Baudains of St. Clement will ask the following questions of the President of the Planning and Environment Committee -

- "1. The statement made by the President on Tuesday 27th November contained the following phrases in relation to planning applications -

*"The system generates letters to applicants, objectors and others automatically as the application moves through the cycle of processing" and "In the case of approval, the permit would not be issued until these detail formalities are completed, usually within seven days of the Committee's decision being made. This would then automatically trigger letters to objectors advising of the decision".*

In light of the above, would the President

give the reasons why, as of 27th November, I have still not received notification of the Committee's decision to allow development of Field 126 in St. Clement. (My most recent communication on this matter was dated 18th October, in which I was notified that the application had, in fact, been refused.)

- "2. The President's statement of 27th November further states - *"The full Committee considers letters of appeal from applicants ....."* and *Frequently States Members attend these appeal meetings ....."*

Would the President explain how States Members are supposed to attend these appeal meetings if they are not in fact informed that an appeal has been made or is being determined, as in the case of myself and others regarding Field 126?"
