1. The Minister for Health and Social Services will table an answer to the following question asked by Deputy S.S.P.A. Power of St. Brelade –

“Would the Minister explain to Members how the MRI scanner is funded and what proportion of a scan’s charge is devoted to consultant/staff/premises costs? How much profit has been made from the 8,332 private scans charged at £650 per scan and what proportion has been set aside to fund a replacement MRI scanner?”

2. The Chief Minister will table an answer to the following question asked by Deputy P.V.F. Le Claire of St. Helier –

- (f) Would the Minister consider an even greater cut than the United Kingdom’s long term aim of a 60 per cent reduction in CO2 emissions by 2050?

- (h) What proposals does the Minister have to respond to the quickening pace of global warming?”

"In relation to the proposals on shared equity being brought forward in conjunction with the Minister for Planning and Environment would the Minister advise members whether it is proposed that the schemes which will be introduced will allow for private sector tenants to have access to them?"

5. The Minister for Social Security will table an answer to the following question asked by Deputy G.P. Southern of St. Helier-

"Given that the first Key Principle of the Social Policy Framework is that of 'Promoting Independence', and that the Framework also states that all major policy initiatives should be assessed against the Aim and Key Principles of the Framework, what assessment, if any, has been made of the Minister's decision to take control of rental payments to the Housing Department away from tenants and how does this decision rate in terms of 'Promoting Independence'?"

6. The Minister for Housing will table an answer to the following question asked by Deputy G.P. Southern of St. Helier -

(b) Will the Minister explain when and how such numbers were identified and when and how the sums of money required were calculated?"

(c) Will the Minister advise members how this policy 'creates and supports independence' in line with the first key principle of the Social Policy Framework and is not simply a 'quick fix' which is identified as a fault of current social policy in the Framework?"

8. The Chairman, Privileges and Procedures Committee will table an answer to the following question asked by Deputy G.P. Southern of St. Helier -

"Given that the St. Helier electoral register for the coming election for Connétable contains only around 14,000 names, will the Chairman advise the Assembly what actions, if any the Connétables will be taking to ensure improved registers in all parishes in time for the October/November 2008 elections?"

10. The Minister for Home Affairs will table an answer to the following question asked by Deputy S.S.P.A. Power of St. Brelade-

- (i) Tamiflu and Relenza are antivirals, not vaccines, and need to be taken within 48 hours of the start of the illness to be of any use?

- (ii) Tamiflu and Relenza are primarily for use against Influenza type A and B, and whether their efficacy against avian 'flu has been quantified?

- (iii) a vaccine to protect against avian 'flu is currently available?

- (b) Given that drugs which fight the influenza virus, such as Tamiflu and Relenza, need to be taken at the onset of symptoms in order to be effective, would the Minister agree to implement Dr. Laver's (the 'flu vaccine co-founder) advice and make the anti-virals available 'over the counter' in the event of a major outbreak locally, thereby saving valuable time otherwise lost whilst patients wait for a doctor's appointment to get a prescription?"

12. The Minister for Planning and Environment will table an answer to the following question asked by Deputy G.C.L. Baudains of St. Clement -

"With regard to the 'Percentage for Art' policy would the Minister –

- (d) assure members that, despite the reference to 'strong encouragement' on page 1 of the Interim Supplementary Planning Guidance Advice Note 3 of December 2006, no pressure will be applied to developers;

- (e) advise whether he intends to undertake further consultation and debate on this new initiative before its full implementation to ascertain whether, given the Island's financial position, the public may

prefer this new levy to fund basic infrastructure rather than art?"

13. The Minister for Transport and Technical Services will table an answer to the following question asked by Deputy S. Pitman of St. Helier -

“Would the Minister inform States members whether or not public transport services have increased since the opening of the new Liberation Bus Station, and if so, state what new services have been put in place?”
