COMMENTS

The Council of Ministers is strongly committed to investment in the community and economic infrastructure of our town and other developed areas of our Island. This commitment to a good quality urban environment goes hand-in-hand with protecting our natural environment, supporting our economy, and improving Islanders' well-being.

Within this, Ministers are mindful that the costs of maintaining infrastructure should be met in as fair a way as practical, which includes considering who uses facilities and who benefits from them. As such, the amendment is accepted as a helpful addition to the theme of working in partnership.
