

**WRITTEN QUESTION TO THE MINISTER FOR ECONOMIC DEVELOPMENT
BY THE DEPUTY OF ST. JOHN
ANSWER TO BE TABLED ON TUESDAY 23rd FEBRUARY 2010**

Question

Would the Minister -

- (a) provide air passenger numbers for the years 2000 to date and extrapolate those for the next 10 years as a trend based on the previous years;
- (b) advise the number of Airport staff in the employ of the States by department for the period 2000 to date;
- (c) advise how many new departments have been established at the Airport since 2000 and indicate what these are and in which year they were established;
- (d) advise whether any consultants or staff have been engaged at the Airport on fixed term contracts since 2000 and, if so, for what length of time and for what purposes?

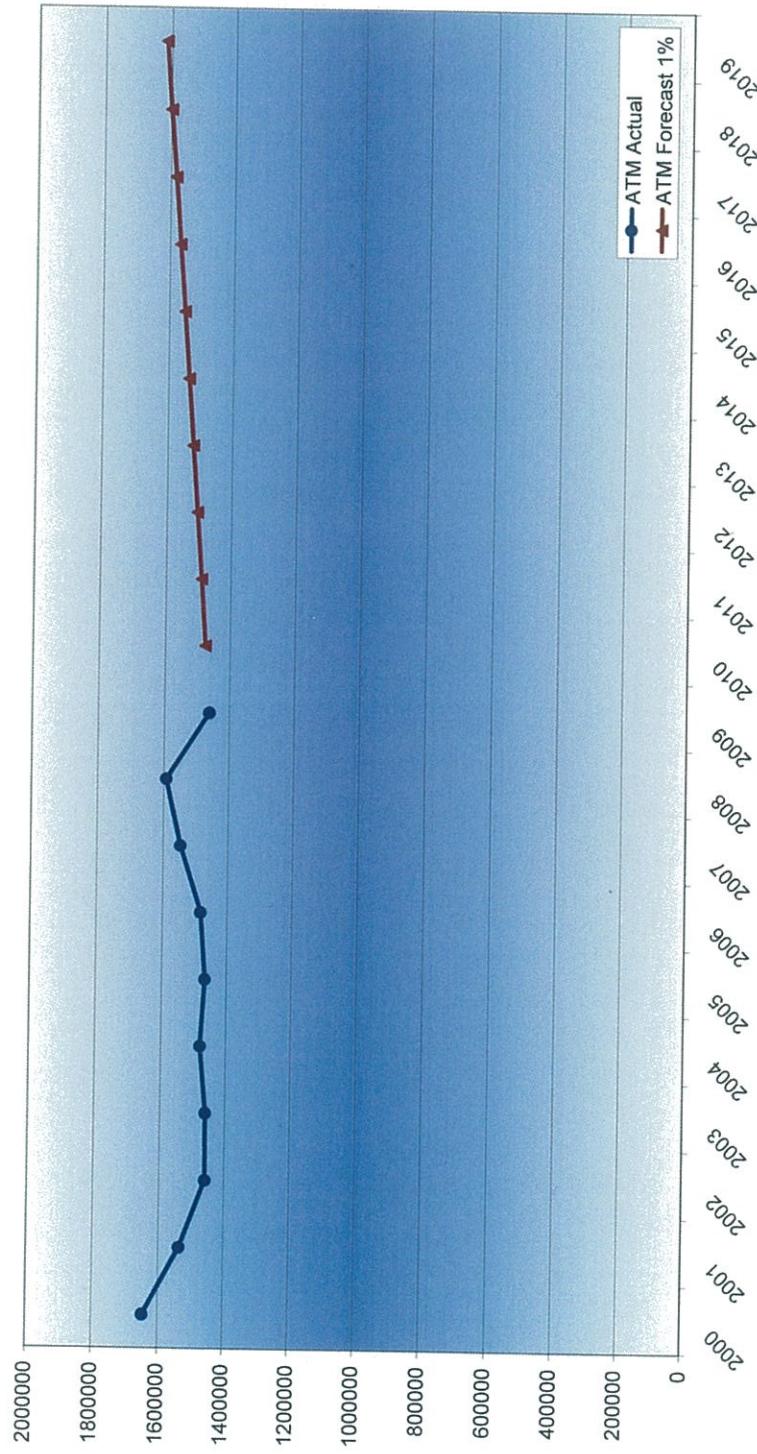

Answer

- a) **Refer to Continuation Sheet 1.** The attached graph shows actual passenger numbers to date since 2000, and a 1 percent per annum projected growth which has been used for business planning purposes.
- b) **Refer to Continuation Sheet 2.** The attached table shows the number of FTEs / posts at the Airport and the number of heads / people employed in those posts each year for the period 2000 to date, presented by department. Explanations of the variance between posts and head count are given below the statistics.
- c) Four new departments have been created at Jersey Airport, including safety, compliance and marketing/airline relations. These are considered vital for the airport to remain compliant with accepted aviation standards and the retention and growth of business respectively, both established in 2008. In 2007, an Operations department and Operations Directorate were also established to direct and co-ordinate safety functions across the airport.

It is worth noting that since 2000 there has been a reduction in departments from Met office (transferred to Planning & Environment in 2004), Radio Officers were transferred to Jersey harbours in 2003 and employees in Aeronautical Fixed Telecommunications Network (AFTN) were made redundant in 2006.

- d) **Refer to continuation sheet 3 and continuation sheet 4.** The assumption has been made that the request relates to specific individuals/consultants effectively being employed as Jersey Airport staff on fixed term contracts compared to consultants and/or companies employed for specific projects due to their specialist knowledge, whereby a number of individuals may be involved.

Jersey Airport
Actual 2000-2009 & Forecast 2010-2019
Arr/Dep Commercial Passengers
