WRITTEN QUESTION TO THE MINISTER FOR TRANSPORT AND TECHNICAL SERVICES BY THE DEPUTY OF ST. MARY ANSWER TO BE TABLED ON TUESDAY 29th MARCH 2011

Question

Can the Minister provide members with a map showing all the small pockets of land maintained by Transport and Technical Services, whether directly or indirectly, throughout the Island, and advise whether steps are being taken to rationalise this effort?

Answer

The areas of land maintained by the Transport and Technical Services Department can be found listed in Appendix A.

The Department continually looks to deliver best value throughout all its land maintenance activities. Future work may include looking at route optimisation across the Island, rationalising non-core services and amalgamating the grounds maintenance services carried out by different sections within the Department, which could lead to even greater efficiencies and savings.

Appendix A

Shown below are the areas of land maintained by the Transport and Technical Service Department. Currently the department is unable to produce a map highlighting all the areas of land maintained by the Department
