

Name: John Liron

Details:

Dear Sir,I feel I need to write to you regarding the disgraceful way the French are treating our Jersey fisherman by refusing to let them land their catches,mind you I'm not surprised as they have no regard for the law as you must have seen on television a few weeks ago ramming and firing flares at British boats fishing legally in French waters.The French always use the saying entante cordiale that's a joke as it's when it's works in their favour.Take back our full fishing limits and refuse all French boats any access to our waters and sell all our catches to the UK or Spain.
