

We are laughing stock of some countries about the cost of this hospital.

As an x states member told me that the French cost of 4 hundred million at Warwick farm ideal plenty big enough 👍.

We would not have to borrow so much and be in a better place. Even some builders saying it's a joke and these ministers should hang their heads in shame.

So why such the hurry, I for one don't believe and trust what they are saying.

So all states members should reject this.

IF YOU WOULD HAD AN ISLAND VOTE ISLANDERS WOULD REJECT THIS, BECAUSE THE GOVERNMENT CANNOT BE TRUSTED.

THANKYOU
