

Phil Wells, 22nd June 2019

I can't tell you how disappointed I was when the CM tore up the proposed population policy and I am even more disappointed that nothing has yet been proposed to deal with our ever increasing population.

It is quite clear that our infrastructure is creaking with the increasing population, you only have to look at the gridlocked roads in and around St Helier to recognise the problem.

I don't intend to take up your time with my thoughts on the problem with uncontrolled immigration but I and many others strongly believe that something must be done before it's too late (if it's not already too late)

Please, please, please do something before our Island sinks under the weight of this uncontrolled immigration!

Thank you

Phil Wells
