Dear Deputy Hilton

**Re: Community Midwives**

Thank you for your letter of the 17 April 2014, in which you state that the Health, Social Security and Housing Scrutiny Panel is currently reviewing the redesign of Health and Social Services, and that you understand that the Community Midwifery Service has been implemented within all GP practices.

To date, I am unaware of any correspondence relating to Community Midwifery Services within our practice.

It may be that this has not reached me for a variety of reasons, but we still continue to offer ante-natal services within our general practice setting.

Yours sincerely

Dr Brian Ellis
